

## ***Leica MZ FLIII fluorescence stereomicroscope***

### Short description:

- Color CCD camera Olympus DP50-CU
  - Fluorescent filters for UV, CFP, GFP and G(reen) ex. (546/10)/red em. (590)
  - Objective zoom 12.5:1
- Best suited for studying fluorescent objects in their entirety in conjunction with large working distances and large fields of view:
- fluorescently labeled flies and nematodes
  - bacteria colonies on agar plates
  - ...
