

Scientific Advisory Board Symposium by the DKFZ-ZMBH Alliance

June 30, 2015

Center for Molecular Biology of Heidelberg University
Lecture Hall, room 001

- 10:00 - 12:20 Role of intramembrane proteolysis in
the control of organelle protein homeostasis
Marius Lemberg (ZMBH)
- Centromere regulation:
A balancing act to maintain genome stability
Sylvia Erhardt (ZMBH)
- ‘Ménage-à-trois’:
DNA:RNA triplexes target chromatin modifiers
to regulatory gene sequences
Ingrid Grummt (DKFZ)
- Molecular control of neurogenesis
and gliomagenesis
Haikun Liu (DKFZ)
- Vascular control of tissue regeneration
and tumor progression
Hellmut Augustin (DKFZ)
- Mitosis - from yeast to human cells
Elmar Schiebel (ZMBH)

July 1, 2015

Center for Molecular Biology of Heidelberg University
Lecture Hall, room 001

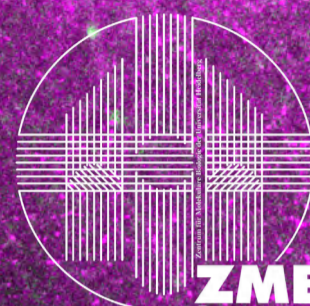

14:45 - 15:45 **Keynote Lecture**

**Protein Homeostasis -
The Challenges of Aging and
Disease**

Richard Morimoto
(Northwestern University, Evanston, IL)

dkfz.

GERMAN
CANCER RESEARCH CENTER
IN THE HELMHOLTZ ASSOCIATION
