

# ZMBH Symposium

**Monday, July 1, 2013 - ZMBH, Room 001**

09.15 a.m.

**Georg Stoecklin**

*German Cancer Research Center (DKFZ), Heidelberg, D*  
„Control of mammalian mRNA decay and translation“

09.45 a.m.

**Javier Martinez**

*Institute of Molecular Biotechnology (IMBA), Vienna, AT*  
„New RNA metabolic enzymes: mechanisms, biology and disease“

10.15 a.m.

**Fulvia Bono**

*Max Planck Institute for Developmental Biology, Tübingen, D*  
„Mechanistic studies of gene expression: transport and localization“

10.45 a.m.

- coffee break -

11.15 a.m.

**John Briggs**

*European Molecular Biology Laboratory (EMBL), Heidelberg, D*  
„Electron microscopy approaches to study coated vesicles and enveloped viruses“

11.45 a.m.

**Stefan Westermann**

*Research Institute of Molecular Pathology (IMP), Vienna, AT*  
„Segregating the genome: design principles of kinetochores“

12.15 p.m.

- lunch break -

01.30 p.m.

**Robert Grosse**

*Biochemical Pharmacological Center, University of Marburg, D*  
„Formin' a dynamic cell response through actin“

02.00 p.m.

**Thomas Mayer**

*Department of Biology, University of Konstanz, D*  
„The function of ubiquitin ligase APC/C during *Xenopus* embryo development“

02.30 p.m.

- end of symposium -

Chair: Bernd Bukau

Guests are most welcome!
