

# ZMBH Symposium

**Monday, July 15, 2013 - ZMBH, Room 001**

- 09.15 a.m.**        **Christiane Berger-Schaffitzel**  
*European Molecular Biology Laboratory (EMBL), Grenoble, France*  
„**Macromolecular Complexes in Gene Expression Control studied by Cryo-EM**“
- 09.45 a.m.**        **Claudio Joazeiro**  
*The Scripps Research Institute, La Jolla, USA*  
„**The Ltn1 Pathway as a Paradigm for Co-translational Protein Quality Control**“
- 10.15 a.m.**        **Leonie Ringrose**  
*Institute of Molecular Biotechnology (IMBA), Vienna, Austria*  
„**Molecular Systems Biology of Epigenetic Regulation by Polycomb and Trithorax Group Proteins**“
- 10.45 a.m.**                                - coffee break -
- 11.15 a.m.**        **Dana Brnzei**  
*FIRC Institute of Molecular Oncology, Milan, Italy*  
„**DNA damage tolerance: mechanisms, regulations and impact on chromosome integrity**“
- 11.45 a.m.**        **Arp Schnittger**  
*Institut de Biologie Moléculaire des Plantes, Strasbourg, France*  
„**The 2 billionth anniversary of the tumor suppressor gene Retinoblastoma - Conservation, diversification and convergence in eukaryotic cell-cycle control**“
- 12.15 p.m.**        **Henrik Kaessmann**  
*Center for Integrative Genomics, University of Lausanne, Switzerland*  
„**Gene expression and regulatory evolution in mammals**“
- 12.45 p.m**                                - end of symposium -

Chair: Bernd Bukau

Guests are most welcome!
