

ZMBH Seminar

Mittwoch, 21.09.05 – Seminarraum 001

- 09.00 h **Prof. Dr. Thomas von Zglinicki**
Henry Wellcome Biogerontology Laboratory, Newcastle
"Cell senescence: a telomere-specific DNA damage response"
- 09.40 h **PD Dr. K. Lenhard Rudolph**
Zentrum Innere Medizin, Medizinische Hochschule Hannover
"Telomeres, Senescence and Telomerase during Aging, Regeneration
and Cancer"
- 10.20 h Coffee Break
- 10.40 h **Prof. Dr. Karl-Peter Hopfner**
Genzentrum und Department Chemie und Biochemie der LMU, München
"The cellular fountain of youth: Molecular mechanisms of
genome maintenance"
- 11.20 h **Prof. Dr. Christian M.T. Spahn**
Charité, Humboldt Universität, Berlin
"A cold look on internal initiation of translation: Cryo-EM structures
of IRES RNAs bound to ribosomal particles"
- 12.00 h Break
- 13.00 h **Prof. Dr. Lukas Sommer**
Institut für Zellbiologie, ETH Zürich
"Regulation of neural crest stem cell fates in development and disease"
- 13.40 h **Dr. Thomas Mayer**
Max-Planck-Institut für Biochemie, Martinsried
"The study of mitosis/meiosis in higher eukaryotes"

Gäste sind herzlich willkommen

Prof. Dr. Bernd Bukau
