

# ZMBH Symposium

## DKFZ-ZMBH-Allianz

---

**Tuesday, June 16, 2009**

**Max-Planck-Haus Auditorium (Gerhart-Hauptmann-Str. 36, side street of Berliner Str., north of Heidelberg Cement Headquarters)**

- 09.00 a.m.     **Thomas Sommer**  
*Max-Delbrück-Centrum f. Molekulare Medizin, Berlin-Buch*  
„A cell’s guide to cleaning out the endoplasmatic reticulum“
- 09.35 a.m.     **Blanche Schwappach**  
*Faculty of Life Sciences, University of Manchester, UK*  
„The GET pathway of tail-anchored protein insertion and its role in cellular stress responses“
- 10.10 a.m.     - coffee break –
- 10.35 a.m.     **Johannes Herrmann**  
*TU Kaiserslautern*  
„Cell Biology of Mitochondria: A fascinating mosaic of prokaryotic and eukaryotic elements“
- 11.10 a.m.     **Barbara Conradt**  
*Dartmouth Medical School, Dept. of Genetics, New Hampshire, USA*  
„Control of programmed cell death during animal development“
- 11.45 a.m.     - coffee break –
- 12.00 p.m.     **Michael Knop**  
*EMBL, Heidelberg*  
„Quantitative imaging of protein interactions in living (yeast) cells: from single modules to networks“
- 12.35 p.m.     **Damian Brunner**  
*EMBL, Heidelberg*  
„Connecting cytoskeleton architecture to force generation and morphogenesis“
- 01.10 p.m.     - end of symposium -

**Chair: Prof. Bernd Bukau**

**Guests are most welcome!**
